FARGO TRUCKS

**in Bakery and Dairy
Delivery Service...**

*give Complete
Satisfaction*

*Thoroughly Satisfied with
Fargo's excellent performance
Especially Low Operating Costs*

We have been thoroughly satisfied with the excellent performance and especially the low operating cost of these Fargo Trucks. They are very economical in operation and during the busy winter months our drivers are very much pleased with them. We don't have a bad thing to say for the Fargo Trucks. We are very satisfied with the Fargo Trucks. We are very satisfied with the Fargo Trucks. We are very satisfied with the Fargo Trucks.

FARGO TRUCKS are engineered and built by Chrysler for long life, reliability and satisfactory performance under all manner of delivery and hauling conditions.

Fargo owners are Fargo's best customers—which accounts, in part, for the fact that shipments of Fargo Trucks from the factory for the months of October, November and December, 1940, were the largest for any month in Fargo history. Make your next truck a FARGO. See your nearest Chrysler Plymouth Fargo Dealer right away!

FARGO TRUCKS COVER 98% OF ALL HAULING AND DELIVERY NEEDS!

Fargo Trucks, comprising 94 classes and body models, enable you to select a 1941 Fargo Model to suit your particular work.

This Is Something You Can't "Leave to George"

A MACLEAN PUBLISHING COMPANY staff editor, Ronald A. Maclean, has been making an extensive tour of the provinces of South America.

In one of his dispatches he talks of visiting the largest Canadian community in that continent. At Valparaiso, in the Province of Chile, there are more than 150 Canadian men, women and children. The men, employed by International Petroleum, run the oil and field in the Americas.

For reasons from the war, and from their own country, these men and their wives have provided a fine example of patriotism. On top of this, because the women are looking forward to the first Christmas, the company has contributed \$10,000 toward a Christmas fund. Most of its members are women, their husbands are thought to be in the Canadian service. The fund is to be used for the war purposes. During Christmas.

This month, the girls at home in Canada, where their husbands are in the war zone, are being asked to increase their efforts.

The government war savings committee through its army of volunteer workers, is asking 1,000,000 Canadians who will pledge themselves to war saving in the last \$10,000,000 worth of war savings certificates each month during 1941.

For each of these 1,000,000 Canadians it means an average:

Saving \$5 a month. (It is saving, for the money will be returned with interest.)

Learning that some \$1 a month for service in the national war effort.

Remember we asked to try to make added up pledges for five per cent of each person's income, making allowances for variations in family or other circumstances.

The plan is not only to stop savings, but also current income, which should prevent excessive spending that would result in increased prices (increased wages, etc.).

Save effort will be focused along five different lines:

Patriotic donations.

The bank pledge plan.

Organization of war savings clubs. Purchase of the issue of \$100 per year by individuals.

Home pledges.

The primary task in this campaign is to secure co-operation on the part of all Canadians that it is not only desirable but NECESSARY that they budget their incomes so that a fair proportion goes into the national war chest.

Because co-operation is not exceeding product, we have not been able to make in this country but as the matter of war dollars the Government is spending more than it is taking in by taxation. Therefore we have got to create our own wage and salary rates, and create them voluntarily instead of under compulsion.

The reason is that without such co-operation we cannot carry on a national war effort.

Co-operation with every other national periodical and newspaper in Canada, this publication will do its utmost to publicize the war savings plan. But just because we've been asked to do this, but because we know what would happen to this country, and to us if Germany were to win. We know what has happened to the price in the countries conquered by the Nazis in Europe.

The job which has to be done here in Canada is to improve any one and any one else that they are personally affected by the war. That the fight is not merely a matter of life.

There are some people who haven't yet realized that but they might misapprehend what would happen to them were Hitler's Germany to win. They are in the same situation in which they live to pay up every month and then every week. They might misapprehend what would happen to their jobs, to their wages, to their standard of living, to the future hopes of their families under a German rule.

If they believe that "it can't happen here," they might not be so sure about them. There are in Canada many refugees who can tell what Hitler's rule is like. Also they might read President Roosevelt's recent speeches and get the answer to whether or not the United States now believes that "it can't happen here."

Of course most people agree that Democracy is worth defending. But savings are not always as clear as they might be when it comes to applying them to one's own circumstances.

What we are fighting for is simple enough. It is to make sure the character of the law and order under which we have shaped our individual lives, to our security for persons and property.

It is to preserve the freedom we believe offers the only guarantee of a "good life."

What we are fighting against in the opening of international law, the violation of pledges and the attempt to take things by force.

In short we are fighting against poverty, hardship and unemployment.

His duty, laws or community would be to take his responsibility as citizens to the observance of law, to the observance of duty. Now would any law be?

It is in these facts that this war becomes a personal matter.

Don't you agree Canada herself with the thought that George, the monthly income, will put up all the money. The Government has pretty well taken care of George. It's paying the great part of his income for the war effort and out of what he has left he is not only losing, but going to be lost. And all the Georges in the country, turned against down and thoroughly shaken, mean nothing but the bottom-dollar's good that year for the war effort.

We can't let George do it in the army, in the navy, in the air force, or in the home front, because, though morally justified as he is, he can't do it unless every man gets in the country in business.

So let's put the war savings drive over with a bang loud enough to be heard in Berlin.
